

# ENERGY SERVICES

Program	Campus	Times	Start Dates	Length	HS Year Eligible	Scholarships Available
Accident Investigation	V	Thursday   8am - 3pm	3/4/21	5 hrs	N/A	N/A
CDL	<b>S</b> R/V	Mon - Fri   8am - 4pm	Open Entry	210 hrs	Senior *Must be 18	YES
Confined Space Entry	V	Thursday   8am- 5pm	4/22/21	5hrs	N/A	N/A
Heavy Duty Diesel	V	Mon - Fri   12pm - 6pm *Lab starts first monday of the month	Open Entry	1050 hrs	Freshman	YES
IVES CB Forklift Operator	V	Wednesday   8am - 3pm	3/17/21	5hrs	N/A	N/A
TTB Heavy Duty Vehicle Safety Inspection Course	V	Mon - Thurs   6pm - 10pm	1/11/21	16 hrs	N/A	N/A
Rigging/Signal Person	V	Thursday   8am - 5pm	1/21/21	7 hrs	N/A	N/A
Trenching and Shoring	V	Thursday   8am - 5pm	2/18/21	7 hrs	N/A	N/A
Well Control Supervisor	V	TBA   Year Round	Contact for Time	30 hrs	N/A	N/A
Well Control Workover Operator	V	TBA   Year Round	Contact for Time	35 hrs	N/A	N/A

## SAFETY

### COMPLIANCE PROGRAM BUILDING

Do you have the required written OSHA programs for your business? Our new Compliance Program Building Course is designed to help identify and build the programs you need to stay compliant to OSHA and other regulatory agencies. This course focuses on management, leadership and employee involvement, worksite analysis and hazard prevention and control, and safety and health training and education. Students will learn what written programs are needed based on their industry as well as the requirements for programs such as fall protection, general safety and health programs, HAZCOM, Permit required confined space, respiratory protection, lockout/tagout and many more.

**For questions or scheduling, please call or email**  
**Kimberli Wadsworth**  
**435.725.7110 | kimberliw@ubtech.edu**

**ACCIDENT INVESTIGATION:** Accident investigation procedures and analysis techniques.

**AERIAL LIFT OPERATOR CERTIFICATION:** 3 yr Certification, includes theory and practical training per OSHA requirements.

**CONFINED SPACE:** Provides training on identification of permit and non-permit required confined spaces, the hazards associated with them and implementing of confined space programs.

**CONTRACTOR CONTINUING ED 6 HOURS (OR 3 HOURS):** Coming this fall August through November. General overview on code updates w/emphasis on local non-compliance issues designed to provide the continuing education required for contractors.

**DEFENSIVE DRIVING PASSENGER CAR:** This course offers practical strategies to reduce collision-related injuries, fatalities and cost by reinforcing good driving skills, putting defensive driving in a personal context and showing students the consequences of the choices they make behind the wheel.

**EMERGENCY/FIRE & EVACUATION PLANNING:** Provides training on determining if a workplace requires an emergency action plan. Development of and implementation of an emergency action and fire protection plans.

**FALL PROTECTION:** Fall protection programs. Fall protection methods, including components of and limitations of fall protection systems.

**INCIPIENT FIRE TRAINING (FIRE EXTINGUISHER):** OSHA compliant incipient fire extinguisher training, includes theory and practical.

**FORKLIFT OPERATOR CERTIFICATION (COUNTER BALANCE OR ROUGH TERRAIN):** 3 yr Certification, includes theory and practical training per OSHA requirements.

**HAZCOM GHS:** Training on SDS sheets and Chemical Labeling mandate.

**HAZWOPER 8, 24 OR 40 HR:** Let UBTech provide the knowledge and skills necessary to ensure the safety of response personnel when taking action to contain and control releases of hazardous materials or response to disaster events that have impacted the workplace and community. This training will aid employers in compliance with local, state and federal regulations applicable to spill and disaster response cleanup. UBTech offers 8 hour refresher and 24 & 40 hour trainings.

**HEARING PROTECTION:** Training on recognizing noise hazards, noise exposure control and selection and use of hearing protection.

**HEAT/COLD AND BIOLOGICAL HAZARDS:** Training on heat & cold emergencies and biological hazards in the workplace.

**HM126 HAZARDOUS MATERIALS:** Teaches the signage and handling/transporting of hazardous materials. 49 CFR 172.704

**H2S HYDROGEN SULFIDE COMPLIANCE:** 2 hr training on the dangers of H2S and the precautions and controls necessary to work in an H2S environment.

**LOCKOUT/TAGOUT CONTROL OF HAZARDOUS ENERGY:** Covers the types and detection of hazardous energy, control measures, and developing and implementing energy control programs.

**MEDIC FIRST AID/CPR WITH AED:** A combined adult first aid, AED, and CPR certification course designed for the occupational first aid provider. Child/infant endorsement available. To schedule, contact Tamara Smith [tamaras@ubtech.edu](mailto:tamaras@ubtech.edu) 435.725.7135

**CHILD/INFANT FIRST AID/CPR ENDORSEMENT TO MEDIC FIRST AID:** Designed to give students the knowledge and skills necessary to manage a cardiac arrest emergency for children and infants. This is a supplemental program that can be taught with the adult Medic First Aid/CPR with AED course.

**MSHA 8 OR 24 HR:** 8 hr Annual Refresher or 24 hr New Miner Surface/Underground, Metal/Non-metal

**NAVIGATING & READING OSHA STANDARDS:** This course utilizes the most used standards in teaching how to navigate and read standards. It shows how to identify standards that apply to companies/employees and what the requirements are that go along with them.

**OSHA 10 HR GENERAL INDUSTRY:** Taught per OSHA requirements. Utilized by many industries in and out of the oil and gas industry.

**PPE/ERGONOMICS/HAND & BACK SAFETY:** Teaches personal protective equipment, ergonomics and hand & back safety requirements

**PEC CORE COMPLIANCE:** A standardized program covering the health, safety and environmental training most requested by oilfield operators and host employers. Instructor-led training that is Safeland accredited and provides training beyond the awareness level for over 30 topics.

**PEC SAFELAND BASIC REVIEW:** 4hr Safety orientation that refreshes the PEC Basic Safeland orientation Refreshes general safety information that

workers need to know before entering a company facility and while performing their assigned work duties. Students will be reminded about hazards they may encounter in their workplace and become familiar with various practices to mitigate those hazards.

**PEC SAFELAND:** Designed specifically for the US onshore E & P Industry. Consistent EH & S orientation which is industry recognized and widely accepted.

**PEC H2S CLEAR:** This course prepares workers by providing crucial knowledge of the dangers of H2S and the precautions, tools and controls necessary when working in H2S environments.

Covers the current classroom requirements of ANSI Z390.1

**RESPIRATORY PROTECTION:** Training on Respiratory Protection programs, use of respirators, medical evaluation, fit testing and respirator selection.

**RESPIRATORY PROTECTION PACKAGE:** Includes the medical evaluation for wearing a respirator, the annually required theory training, and fit testing.

**RIGGING/SIGNALPERSON:** common rigging utilized in lifts and the theory & practical training for the signalperson.

**SILICA HAZARDS:** This course provides information and training on OSHA's silica standards, hazards, risks and exposure control measures.

**TRENCHING & SHORING:** Provides training on various soil types, soil mechanics, shoring and the use of protective systems.

**WINTER DRIVING:** Provides information and training for driving in adverse weather and how to prepare your vehicle for driving in winter conditions.

## TRANSPORTATION COURSES

**AIRBRAKE WORKSHOP:** Covers the inspection and adjustment of airbrakes.

**DEFENSIVE DRIVING FOR PROFESSIONAL TRUCK DRIVERS:** Designed for the CDL driver. Drivers learn to recognize potential hazards and learn best practices to promote safe driving skills.

**DOT HM126 HAZARDOUS MATERIALS:** Teaches the signage and handling/transporting of hazardous materials. 49 CFR 172.704

**DOT LOG BOOK HOS:** Designed for individuals and employers who need to know and discuss applicable DOT laws regarding hours of service regulations and proper log-book completion including electronic logs.

**DOT UHP WORKSHOP:** Presentation by UHP trooper includes what to expect in a DOT inspection, oilfield exemptions and motor carrier regulations.
